

Developmental Course Offerings

Residents and fellows interested in leadership growth and recommendations from their program director may apply. Participants benefit from early interactions with Sound leadership and a monthly journal club.

Physicians and APPs with the interest and potential to lead have the opportunity to connect through monthly journal clubs, group projects, and learning sessions.

Our innovation training curriculum consists of a five-module program designed to equip Sound colleagues for independent and collaborative innovation. This session teaches skills that include executing innovative projects, engaging key stakeholders, and leading effective project teams.

NATIONAL LEADERSHIP *Zoom*

Each quarter, our leaders attend the NLZ. This event combines education, collaboration, and celebration. Our leaders come away with inspiration and ideas to bring back to their teams.

A crucial conversation is a discussion between two or more people where the stakes are high, opinions vary, and emotions run strong. This course teaches participants how to speak persuasively and to foster teamwork.

We have purpose-built these sessions to equip leaders with skills and shared practices as they navigate the complexities of clinical leadership.
