**We have a  
100% approval  
rating with  
our H-1Bs**

*“ I was on a J-1 Visa for my residency and was very worried about the waiver process and getting a good hospitalist job in a good location through the H-1B Visa process. I had also heard that the paperwork and money involved can be quite overwhelming. I was lucky enough to find a recruiter with Sound Physicians and find a job in a hospital just 50 minutes outside of Seattle as a hospitalist physician, working 7-on and 7-off in a wonderful community setting. They also took care of my entire visa application process with their wonderful lawyers and staff. It was such an easy process, and it was easy to get a hold of someone anytime I had questions. Sound is a very well organized and well-oiled machine. ”*

SOUND PHYSICIANS HOSPITALIST

*“ When I started looking for career opportunities, I was looking for a non-profit organization as it helps me get H-1B Visa on priority. Sound Physicians was aware of this and offered me opportunities that suit my requirement. After I accepted the offer, the first thing we did was to apply for visa. From the application to issuance of visa, it was such a smooth ride for me. They successfully handled all interim queries on my behalf and were extremely knowledgeable and approachable at all times. ”*
