

# VENICE REGIONAL BAYFRONT

## VENICE, FL

*Join the fastest growing physician-led anesthesia practice centered on your experience where you can be proud of the care you give*

At Capital Anesthesia, a part of Sound Physicians, we know that an engaged team stems from strong clinical leadership. Our leaders include board-certified clinicians who bring years of clinical and operational knowledge along with demonstrated success in the building and management of nationwide anesthesia practice. Their focus on establishing an anesthesia care team model where each clinician is valued and invested ensures that we can continue to improve the perioperative experience and decrease costs for our patients.

To drive volume while increasing the quality of patient care, Capital and Sound Physicians has taken a unique approach to anesthesia services. Our care-team model leverages both anesthesiologists and CRNAs to facilitate throughput in the OR and provide closer contact between anesthesia clinicians and patients. The result is better access to anesthesia resources, improved productivity, and enhanced patient experience.

### Certified Registered Nurse Anesthetist (CRNA)

- Care team model, collaborative practice
- Perform at the top of your license on a variety of cases: general, ortho, GYN, urology, plastics, vascular, neuro, bariatric, EP lab, and ENT; No OB, no trauma
- Monday – Friday, no call, no weekends
- Access to our proprietary learning platform, SoundInstitute™, for continuing education, and professional development with convenient online and in-person educational courses, including CME
- In-depth, real-time performance feedback to ensure you have the right technology to drive better patient outcomes

### WHY SOUND

- Expertise in performance management across the entire acute and post-acute episode of care
- Our technology-forward, data-driven approach to improving patient experience
- SoundMetrix, our proprietary analytics platform, provides real-time, risk-adjusted metrics and patient levels to optimize care
- Sound’s own workflow and communications platform that supports clinician and nursing workflows across care settings

## COMMITMENT TO OUR FRONT-LINE CLINICIANS

Medical programs excel when they have teams that are provided with consistent development opportunities and the resources they need to support their wellbeing. All of our clinicians attend an in-person onboarding session to align our vision and values and the values and goals of our hospital partners. In addition, we heavily invest in online and in-person development opportunities for our clinicians to help them reach their greatest potential.

Venice Regional Bayfront Health is a 312-bed acute care hospital and is part of the Bayfront Health Network. The hospital provides a full range of services including cardiac, stroke, orthopedic, metabolic, open-heart, and advanced surgery, women's care, and interventional radiology.
